

# ENVIRONMENTAL POLICY

(A W Trinder Ltd HS05)

A W Trinder Ltd are committed to using sustainable methods and materials wherever possible across the business group.

We aim to minimise or eliminate our impact on the environment, and this is a key component in the design criteria of our products, how they are made, and how they are used.

We ensure we are meeting or exceeding all levels of compliance whilst actively seeking feedback from all stakeholders to ensure we are continually improving the sustainability of our products and services.

Our "Three-Arrow" approach to supporting our environmental footprint:

1) **Increase;** Technology

- Ongoing research of componentry and equipment to increase efficiency outputs
- Ongoing analysis of outwork supply chain to ensure high degree of efficiency
- Electronic purchasing
- Electronic filing system wherever possible

2) **Minimise;** Waste

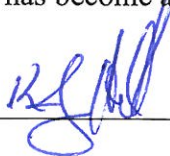

- All scrap steel and other metals
- Purchase of recycled materials for rags
- Plastic bags and cardboard packaging through store are re-used
- Unused plastic bags and cardboard is collected for recycling
- Waste oil is collected by local oil recycler
- Refurbishment and upgrades of old and or worn industry equipment
- Focus on reduction of consumable usage

3) **Reduction;** Power & Fuel

- Latest high efficiency lighting systems installed throughout workshops
- Maintaining clear roofing to enhance natural lighting
- Light sensitive auto-off lighting controllers
- Departmental end of day checks to ensure all equipment and gas sources are switched off
- Reduction in afterhours site lighting
- Efficient/Economical company vehicles

Sustainability has become an essential part of our business.
